Overview

Project	Soundings
Track	Track 2 (Dashboards & Interfaces)
Problem	Fear & Greed can disagree with BTC funding. RYO does not publish wallets or open interest, so those prints cannot be shown.
Solution	Read-only terminal on RYO's six research tools. Analytics reports crowd vs tape as $S = 0.5 \text{ Fear \& Greed} + 0.5 \text{ BTC funding percentile}$. Missing fields stay blank.
Key Features	Overview, Analytics (S and gap), Screener, Token, Sentiment, Compare, Claw, JSON /api.
Target Users	Traders who want a 30-second crowd-vs-tape read.
Scope	Live RYO MCP: market_overview, scan_market, analyze_token, deep_analysis, compare_tokens, monitor_market_sentiment_shift. Optional TrueNorth F&G / MVRV. No orders.
Limitations	No wallet lookup, no open interest. Runs locally on port 8001.

Tech Stack

Frontend Stack	Jinja2, CSS, vanilla JS
Backend Stack	Python 3.12, FastAPI, uvicorn, httpx
AI Model(s)	None on market desks. Claw optional: OpenRouter x-ai/grok-4.3
Other Technologies	python-dotenv; optional TrueNorth MCP

Repository / Demo

Github Repository	https://github.com/RYO-Digital/ryochan-hackathon_repository-142
Demo Video	
Documentation	README.md

Testing Information

How to run the Project	http://127.0.0.1:8001/analytics
Prerequisites	Python 3.12, pip, RYO_MCP_KEY
Installation Steps	Clone; python -m venv .venv; pip install -r requirements.txt; copy .env.example to .env
Environment Variables	RYO_MCP_URL, RYO_MCP_KEY. Optional: OPENROUTER_API_KEY, TRUENORTH_MCP_URL, TRUENORTH_MCP_TOKEN
Build Command	None
Run Command	uvicorn app.main:app --host 127.0.0.1 --port 8001
Test Command	python scripts/probe_endpoints.py
Test Account(s)	None
